2023
the saga continues to unfold.

Our Services

VIDEO

We offer our customers a wide range of professional video solutions. We can customize our solutions according to the needs of each event, whether it be playback or live recordings, live transmissions via LED or LCD screens, video projections or dynamic presentations.

AUDIO

Acoustic quality is extremely important for any type of public event. Outdoor or indoor. That's why we use high-performance sound equipment to ensure a great experience for everyone involved, whether we talk about concerts, festivals, sports events, conferences. We have the necessary experience to adapt our solutions according to the specifics and space intended for each event.

SCENOGRAPHY

We offer high-performance scenography equipment, stages, podiums, screens, light adjustments and grids, decorations, and technical support at height. Our certified engineers, designers and technicians ensure the design, installation and dismantling of rigging systems in compliance with all applicable national and international regulations, legislation, and safety rules.

Our Services

LIGHTS

The importance of lighting equipment in creating a remarkable ambiance for any occasion or venue is crucial. For this reason, we cover a wide range of lighting needs with decorative or animation roles, from projectors and LED spots, profile and tracking spots, strobes, and blinders to the latest smart moving-head equipment or those dedicated to laser effects.

MEETING 15

EVENT MANAGEMENT

Meeting15 is quickly becoming the industry-leader in event platforms, and for good reason. Our clients can build and implement the most advanced events in both the real and virtual worlds with our easy-to-use interface. Plus, our support team is always available to help with any questions you may have.

2D / 3D ANIMATION

No matter what industry you're in, 2D/3D animation services can help take your company to the next level. Here, at Holograma 3D, we specialize in creating content that is both visually stunning and informative. Whether you're looking to create a holographic presentation for a trade show or an animated video for your website, we can help. We also offer consulting services to ensure that your ideas are brought to life in the most impactful way possible.

Welcome to CHARITY!

Connect with Us

Since the beginning of 2021, we are members of CHARITY and we are anytime excited and ambitious to participate in European Projects.

The goal of CHARITY is to utilize intelligent and autonomous orchestration of cloud, edge, and network resources to establish a mutually beneficial relationship between low and high latency infrastructures, thus meeting the demands of emerging applications.

These intelligent tools have the potential to address any highly interactive services and applications and will be tested against a variety of highly anticipated applications that involve extreme levels of interaction and data exchange between end-users and application components, such as AR, VR, and Holography applications.
